

## The First Veterans Party of America Conference Nov. 18-20, 2006, Tampa, FL

Bob Thompson  
Panama City, Florida  
Emerald Coast Firebase  
Veterans Party of America, Florida Chair

In case you haven't yet been updated, here is how I saw the First Veterans Party of America Conference: Keep in mind the Party consists of only 15 Certified States, which has been formed since August of 2003, a great fete in my option, if one takes into consideration it took 11 years for the original Colonies to Ratify our Constitution, and there was only 13 of them. The attendance was pretty good, we had State Chairperson's from the 4 corners of our Country, Maine, California, Florida and Washington and several in between.

This was a working get together beginning at 18.00 hours November 18, 2005 and several more each day, beginning at 10.00 and lasting well in to the evening hours. There was plenty of time for social activities and to get to know each other, but all in all, we established plans that will lay the ground work when we hold our First Convention, before the 2008 Presidential Elections.

On the 19th, we held our Florida State Annual Meeting and Elections. My participation with the Florida Veterans Party, the first State to be Certified as the Veterans Party of America, began a little later than some, for two reasons, and I am making these remarks to clear up some misunderstandings regarding the Veterans Party and the Veterans Voting Block. First let me be clear, I was pursued by the Veterans Voting Block, to become the Florida State Chair of that Group. One Officer of the movement drove long distance, with his Wife to recruit me and the Founder of the VVB joined us, at the Class Act Group Rally in Washington DC in February 2003 and again made the offer. I turned down the VVB for two reasons, (1) they lied about their number of members and (2) the Leaders were pursuing personal gains rather than to unify Veterans.

I did not join the Veterans Party at first because I wanted to be sure the movement was pure and the participants priority was in keeping with the Safe Guarding of our Republic and that since they did not solicit my membership and those in the Florida Panhandle, numbering in the hundreds, that I am involved with before they Formed made me leery of their intentions.

During the Florida State Meeting, our State Chair announced that he would not seek reelection to that Seat because he would be running for a Political Office under the Party's Banner. I was elected to the State Chair position and along with Charlie Donovan, Reelected as Vice, Debra Hollis, Secretary and Gil Heroux, Treasurer, we now have the Veterans Party of America Florida, Headquarters here in Bay County.

All who have not joined us at [www.veteransparty.us](http://www.veteransparty.us) should seriously consider it. To do nothing is the same as abetting what the Republicans and the Democrats have been doing to us while they are destroying our Constitution. Scroll down the left side of our web page to "Our Platform" click on "GO" and read our Issues. We are not asking Veterans to abandon efforts for their causes, but we do ask you to remember your Oath to protect this Nation from ALL Enemies, both Foreign and Domestic and by supporting the very people who are destroying America, you are inadvertently aiding them. Have you ever been released from that Oath? I haven't been nor would I accept such a release.

Join us my Friends, change your voter affiliation and Reform will begin overnight. Every American of Voting age can join us, not just Veterans. We are the People our Forefathers established this great Republic for, not the Special Interest Groups who have made it too expensive for us to nominate and elect Patriots under their rules.

Help us Form a Third Major Political Party and change their Rules back to the control of the People under the Rules established by our Constitution. Your Choice, either live in a Free Republic or sit by and watch while our Country is being changed to a Democracy that if left to its own devices, will be converted to a One World Order Dictatorship then destruction, as has all Democracies that came before.
